PROFESSIONAL PROFILE

Medical Doctor (M.D.), **Specialist in Paediatrics, Doctor of Philosophy** (PhD)

I am currently working as a consultant in the Paediatric Gastroenterology and Hepatology Unit at the Regina Margherita Children's Hospital, AOU Città della Salute e della Scienza, Turin, Italy.

Our unit works in close collaboration with the Liver Transplant Center of Molinette Hospital, Turin. The paediatric liver transplant program was launched in 1999 and, to date, more than 150 liver transplants have been performed.

After starting my residency training in Paediatrics in 2009, I developed a strong interest in Paediatric Hepatology, and since my fourth year of residency I worked intensively with the Paediatric Gastroenterology and Hepatology Team at the Regina Margherita Children's Hospital in Turin under direct supervision of Dr. Luigi Calvo.

I am particularly interested in evaluating new strategies to improve and optimize immunosuppression in paediatric liver transplant patients. Indeed, my main research topics include tacrolimus pharmacokinetics and pharmacogenetics, intracellular therapeutic drug monitoring and the role of donor-specific antibodies and chronic antibody-mediated rejection in hepatic fibrosis.

On January 2019, I defended my PhD thesis entitled: "*Optimization in tacrolimus dosing and monitoring in paediatric liver transplant patients: from the first post-transplant day to the long-term follow-up*".

As I am interested in enhancing my knowledge and experience in Pediatric Hepatology, I attended the ESPGHAN School of Paediatric Liver Transplantation.

I have always enjoyed teaching and sharing my knowledge with other people, as well as the idea of looking into things not only from a practical but also from a more scientific point of view through research. For this reason, since 2014, I am responsible for the supervision of residents and fellows working in our Unit.

I am attracted by cultural diversity and I have always wanted to live and work in a stimulating environment where I can enhance my personal and professional growth.

MEDICAL EDUCATION AND WORKING EXPERIENCES

- **07/2001** - High school diploma (mark: 100/100), Liceo Scientifico Saccheri, Sanremo, Italy
- **10/2002-03/2008** - Medical School, University of Turin Medical School, Turin, Italy
- **03/2008** – Medical Degree, University of Turin Medical School, Turin, Italy. Doctor in Medicine and Surgery, certified with 110/110 cum laude, thesis priced with right to publication.

Thesis title: "A prospective 7-year survey on central venous catheter-related complications at a single pediatric hospital" (supervisor Prof. Pier-Angelo Tovo)

- **07/2008** - Unrestricted licensure to practice medicine in Italy (OMCeO reference number: 21353)
- **June 2009 - July 2014** - Residency in Pediatrics at the Regina Margherita Children's Hospital, University of Turin, Italy (Director: Prof. Pier-Angelo Tovo). Resident in Paediatrics, certified with 70/70 cum laude, thesis priced with right to publication. Optime Award given to the best graduate students in 2007-2008, conferred by University of Turin.

Thesis title: "Pharmacokinetic and pharmacogenetic analysis of tacrolimus in pediatric liver transplant patients. An ULPC MS/MS method coupled with automated on-line solid phase extraction for quantification of tacrolimus in PBMCs samples"

- **11/2014- 11/ 2018** - PhD in Paediatrics, Doctoral School in Life and Health Sciences, Ph.D. Program in Biomedical Sciences and Oncology, University of Turin
- **01/2017 – Present** – Consultant in the Paediatric Gastroenterology and Hepatology Unit at the Regina Margherita Children's Hospital, AOU Città della Salute e della Scienza, Turin, Italy (Director: Pier Luigi Calvo, MD, email: pcalvo@cittadellasalute.to.it)

Thesis title "Optimization in tacrolimus dosing and monitoring in paediatric liver transplant patients: from the first post-transplant day to the long-term follow-up"

- **11/2019 – 12/2019** – Clinical Observer at Paediatric Liver Centre, King's College Hospital, London

RELEVANT COURSES ATTENDED

- **2019** - PALS certificate (Pediatric Advanced Life Support)
- **2014** - Neonatal Resuscitation certificate
- **2014** - ESPGHAN Pediatric Hepatology Summer School, Vietri sul Mare, Italy
- **2015** - Master Class Gestione clinica della patologia da HCV nell'era dei DASS, AISF (Associazione Italiana per lo Studio del Fegato), Padua, Italy
- **2015** - ESPGHAN Paediatric Liver Transplantation Summer School, Rovinj, Croatia
- **2017** - ESPGHAN Paediatric Liver Transplantation Summer School, Bergamo, Italy
- **2019** - ESPGHAN Monothematic Conference: Infections of the Liver at Paediatric Age

RESEARCH EXPERIENCE

CLINICAL TRIALS

03/2016 – Present- Sub-investigator of the following studies:

- A phase 2, open-label, multicenter, multi-cohort, single-arm study to investigate the safety and efficacy of Sofosbuvir + Ribavirin in Adolescents and children with genotype 2 or 3 chronic HCV infection - Gilead GS-US-334-1112
- A long-term follow-up registry for adolescent and pediatric subjects who received a Gilead Hepatitis C Virus Direct Acting Antiviral (DAA) in Gilead-Sponsored Chronic Hepatitis C Infection Trials - Gilead GS-US-334-1113
- A Double-blind, Randomized, Placebo-Controlled, Phase III Study to Demonstrate Efficacy and Safety of A4250 in Children with Progressive Familial Intrahepatic Cholestasis - A4250-005
- An Open-label Extension Study to Evaluate Long-term Efficacy and Safety of A4250 in Children with Progressive Familial Intrahepatic Cholestasis - A4250-008
- A Phase 2, Open-Label, Multicenter, Multi-cohort Study to Investigate the Pharmacokinetics, Safety and Efficacy of Sofosbuvir/Velpatasvir/Voxilaprevir Fixed Dose Combination in Adolescents and Children with Chronic HCV Infection

OTHER PROJECTS

- Global ALagille Alliance (GALA) Study (Principal Investigator: Dr. Binita Kamath, Hospital for Sick Children/University of Toronto, Ontario, Canada)
- Working Group Graft Injury Group (GIG) (Chair: Prof. Deirdre Kelly, Birmingham Women's and Children's NHS Foundation Trust)
- Natural course and Prognosis of PFIC and Effect of biliary Diversion (NAPPED) Study (Principal Investigator: Prof. Dr. Henkjan J. Verkade, University Medical Centre Groningen)
- Italian Network for patients affected by Biliary Atresia (SIGENP)
- Quantification of tacrolimus in PBMCs samples as a biomarker of clinical outcome in pediatric liver transplant patients
- Long-term outcome of liver allograft in children: idiopathic post-transplantation hepatitis, fibrosis and the role of immunosuppression

Last training in GCP: 21/08/2018

ACADEMIC ACTIVITIES

Medical Thesis Co-Supervisor for the University of Turin

- **2018** - The role of immunosuppression in post-transplant idiopathic hepatitis, liver fibrosis and antibody-mediated rejection in pediatric liver transplant patients
- **2019** – Long-term outcome of liver allograft in children. Idiopathic post-transplantation hepatitis, fibrosis and the role of immunosuppression

Teaching Assistant for the University of Turin

2016 – Present – Pediatric Gastroenterology for Student Nurses
